Notes to Financial Statements

For the periods ended June 30, 2021 and 2020

(expressed in Canadian dollars unless otherwise noted)

1. NATURE OF OPERATIONS

Torrent Capital Ltd. (“Torrent” or the “Company”) is a publicly traded investment issuer listed under the symbol TORR on the TSX Venture Exchange (“TSXV”). The Company’s focus is on strategic investments in public and private company securities, with the objective of increasing shareholder return. The Company’s corporate office is located at Suite 2001 – 1969 Upper Water Street, Purdy’s Wharf II, Halifax, Nova Scotia, Canada, B3J 3R7.

As at March 31, 2021, the Company had cash and cash equivalents of \$125,895 (December 31, 2020 - \$2,483,562) and working capital of \$27,708,004 (December 31, 2020 - \$27,147,286). Management believes that it has sufficient resources to fund its ongoing working capital requirements for the ensuing twelve months as they normally fall due.

Since December 31, 2019 and continuing into 2021, the outbreak of the novel strain of coronavirus, commonly identified as “COVID-19”, has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and conditions of the Company in future periods.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of Compliance

The Company prepares its unaudited condensed interim financial statements in accordance with Canadian generally accepted accounting principles as set out in the Handbook of Chartered Professional Accountants of Canada – Part 1 (“CPA Canada Handbook”), which incorporates International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting* (“IAS 34”), as issued by the IASB. Accordingly, certain information normally included in annual financial statements prepared in accordance with IFRS, as issued by the IASB, have been omitted or condensed. The unaudited condensed interim financial statements should be read in conjunction with the Company’s annual audited financial statements for the year-ended December 31, 2020.

The policies applied in these unaudited condensed interim financial statements are based on IFRS as of August 19, 2021, the date the Board of Directors approved the condensed interim financial statements. Any subsequent changes to IFRS that are given effect in the Company’s annual financial statements for the year-ended December 31, 2021 could result in the restatement of these unaudited condensed interim financial statements.

Financial Instruments Recorded at Fair Value

Financial instruments recorded at fair value on the statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - valuation based on unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

For the periods ended June 30, 2021 and 2020

(expressed in Canadian dollars unless otherwise noted)

5. STOCK OPTIONS AND RESTRICTED SHARE UNITS (Continued)

The estimated fair value of options recognized has been estimated at the grant date using the Black-Scholes option pricing model. Option pricing models require the input of highly subjective assumptions, including the expected volatility. Changes in the assumptions can materially affect the fair value estimate and, therefore, the existing models do not necessarily provide a reliable estimate of the fair value of the Company's stock options.

There were no options issued during the period ended June 30, 2021. The assumptions used in the pricing model for the options issued during the year ended December 31, 2020:

	Dec 31,
	2020
Risk free interest rate	0.4%
Expected volatility	61%
Expected dividend yield	-
Expected life	5 years
Weighted average fair value per option	\$0.226

Based on the Black-Scholes option pricing model and the assumptions outlined above, the estimated fair value of the options granted during the year ended December 31, 2020 is \$114,990. These amounts are amortized over the vesting period with \$91,462 expensed during the year ended December 31, 2020. The following table reflects the stock options continuity for the years ended December 31, 2020 and 2019:

	Number of Stock Options Outstanding	Weighted Average Exercise Price \$
Balance – December 31, 2019	825,000	0.31
Options issued	535,000	0.46
Option exercised	(50,000)	0.30
Balance – December 31, 2020 and June 30, 2021	1,310,000	0.38

The following table reflects the stock options outstanding as at June 30, 2021:
